and intervention for preschool children.

**EARLY

concerns during a
critical window of
development.

**PARENT
SUPPORT**

Providing education,
resources, and a
clear path forward
for families.

**FOLLOW-UP
CARE**

Removing barriers
with transportation
assistance and
access to audiology
services.

**CLASSROOM
SUPPORT**

Supplying listening
tools that help
children learn,
participate, and
thrive.

*This is what **service** looks like.*

Creating opportunities so every child has the chance to **be heard**.
